**Type of the activity** | Hotspot Mapping.

### 1.0 About IIDC.
Impact and Innovations Development Centre (IIDC) is a not-for-profit technical assistance organization that supports development agencies in the areas of program refinement, knowledge management and organizational development as well as support in evidence building and safeguarding.

### 2.0 Background.
Rates of IPV and VAC are high in Uganda. According to the 2016 Demographic and Health Survey, 56% of ever-married women reported ever experiencing physical, emotional or sexual violence by their current partner or spouse and 39% reported experiencing IPV in the past year.4 Childhood violence is even higher. The recently published Uganda VAC Survey shows that 59% of girls and 68% of boys had experienced physical violence in childhood.5 Almost half of the time, the perpetrators of this violence are parents and caregivers.6 Research globally7 and in Uganda8 shows that exposure to violence in the home as a child can increase the likelihood of a boy perpetrating violence as an adult man and a girl experiencing violence as an adult woman.

Witnessing and experiencing violence impedes children’s healthy development and learning, inhibits positive relationships, provokes low self-esteem and emotional distress, and can lead to self-harm and aggressive behavior. IIDC with partners will be implementing a 5 years Build a World of Play reaching a total of 425,000 children via the REAL home-based ECD. Responsible, Engaged and Loving (REAL) Fathers is an evidence-based, community-led mentoring program for fathers of toddler-aged children that teaches positive parenting and nonviolent discipline. Endorsed by Uganda’s government for a national scale-up, REAL Fathers is ready to support men Uganda in nonviolent parenting techniques and home-based early childhood development (ECD).

IIDC working with local partners will integrate the program into the ECD system at the national scale in 24 Districts of Teso Region (Amuria, Katakwi, Serere, Soroti), Lango (Dokolo, Kole, Lira, Oyam), Ankole (Ibanda, Mubende, Nakasongola, Bujumbura), Busoga (Kamuli, Bugiri, Iganga, Mayuge), North Buganda (Kavuma, Mubende, Nakasongola), Bonyoro (Hoima, Kikuube, Kiyandongo, Masindi). IIDC at the inception phase of the project planned to conduct a Hotspot Mapping to gather actual data using both secondary and primary sources to inform actual target areas within these regions.

IIDC would like to hire a consultant to undertake a Hotspot Mapping to gather information on the key areas in the project districts in which Intimate Partner Violence and VAC prevalence is rated high. The information gathered will help IIDC and partners to set up relevant assessments planned at the kick start of the REAL Fathers scale up implementation phase.

### 3.0 Objectives:
- To map hot spots, define hot spots area within the project geographical locations and draw a geo map representing these areas cited per region.

---

• To estimate the number of children and women affected by violence in the hotspot areas mapped.
• To identify existing social protection support and other related support systems.

4.0 Consultant Deliverables:
The Consultant will deliver:

i. An inception report no more than one week after the signing of the contract including a detailed plan for the entire exercise.

ii. All data collection tools/approach for review prior to testing and deployment.

iii. Develop an indicator list on child wellbeing standard indicators across three sectors that is; education, health and community development.

iv. Conduct a hotspot analysis plan to identify child wellbeing hotspots across 24 target districts i.e. locations with poor indicators of children 0 – 3 years.

v. A draft final hotspot mapping report for review by IIDC management.

vi. A final hotspot mapping report highlighting the results in relation to stated objectives.

vii. Raw data.

viii. Research utilization matrix

5.0 Consultant Specification (Qualification and Skills):
This consultancy will be carried out by an experienced and qualified local consultant. S/he will be selected through a competitive and transparent process. Relevant experience criteria will include:

1) Masters Degree in Development studies, Population studies, Public Health or related field with field experience in large scale studies.

2) At least 10 years’ experience in development Assessments/research.

3) Excellent analytical and management skills.

4) Good interpersonal skills and capacity to liaise with parties concerned.

5) Strong facilitation, writing and presentation skills.

6) Sound knowledge on statistical analysis tools and using spreadsheet and word processing (Microsoft Word and Excel).

7) Experience in applying qualitative and quantitative evaluation methods, demonstrating a strong record in designing and conducting/leading assessments in the area of child health, SRH, VAC/VAW.

8) Excellent analytical, research, writing and concise and compelling communication skills; Strong visual presentation skills preferred.

9) Fluency in both local languages and English language.

6.0 Supervision Arrangements.
The consultant/firm will be reporting to the Heads of Programs. The consultant/firm will be working closely with Technical Advisor Monitoring, Evaluation and Learning.

7.0 Timeframe for the task.
The duration for the entire task will be suggested by the selected consultant during the development of the inception report in relation to the geographical scope.

9.0 Required Documents.
Technical Component:

• A written technical application no more than 7 pages in length outlining the technical approach that you will undertake to complete the work, the methodology and any additional consulting staff who will participate in the project.

A clear demonstration of capabilities and expertise in carrying out the Consultancy as detailed in these ToRs.

• References, web links or electronic copies of two or three examples of recently completed evaluation reports. Candidates are also encouraged to submit other references such as
assessment/baselines/evaluation reports that demonstrate their familiarity with the subject under review.

A financial proposal:
- This should provide a detailed costing of the required resources to perform the assignment with itemized budget and explanatory notes.

Attachments:
- CV(s) of the Consultant(s).
- For firms: Copies of- Firm registration certificate, VAT registration certificate, Latest tax clearance certificate.

If any documents/information is not available or not applicable, the reason(s) must be clarified in the proposal form. IIDC will have the right to disqualify the proposals from the selection process if the proposal submission guideline has not been followed.

8.0. Deadline of Submission:
The Proposal must be in English and submitted electronically

Use the following email address for electronic submission: tenders@iidcug.org

The closing date is 24th Feb, 2023 by 5:00pm (East African Time). The interested bidders for the consultancy should ensure that bids are submitted timely.
